Introduction

Welcome to the user guide for the **New Products Extension** for Magento 2. This extension is designed to help you effectively showcase new products in your Magento store. It offers features for both automatic and manual product selection, dynamic sliders, and flexible display options, allowing you to highlight new arrivals and engage customers more effectively.

Key Features:

- Compatibility with all product types.
- Options for automatic or manual product selection.
- Category-wise filtering and sorting.
- Versatile display options including sliders and code snippets.
- Support for multiple store views.

Configuration

Access Extension Settings

To configure the New Products Extension, follow these steps:

1. **Log in to Magento Admin Panel.**
2. Navigate to **Stores → Configuration → MAVENBIRD EXTENSIONS → New Products.**

General Settings

Configure the basic settings for the extension:

- **Enabled:** Select Yes to activate the extension. This must be enabled for any new products to be displayed.
- **Display Heading:** Choose Yes to show a heading above the new products section.
- **Heading Text:** Enter the desired heading, e.g., "New Products", which will be displayed on the frontend.
- **Add Slider for Products:** Select Yes to enable a slider for displaying new products.

Enabled [store view]	<input type="text" value="Yes"/>	▼
Select Yes for display new products on frontend.		
Display heading [store view]	<input type="text" value="Yes"/>	▼
Select Yes for display page heading.		
Heading [store view]	<input type="text" value="New Products"/>	
Here we can set heading		
Add Slider For Product [store view]	<input type="text" value="Yes"/>	▼
Select Yes for display Slider		

Slider Settings

Set up the product slider options:

- **Auto Scroll Products:** Choose Yes to enable automatic scrolling of the slider.
- **Show Navigation Arrow:** Select Yes to display navigation arrows for manual scrolling

Slider settings

Auto scroll products [store view]	Yes	▼
Select Yes for auto scroll new products		
Show navigation arrow [store view]	Yes	▼
Select Yes for show navigation arrow for slider		
Show Dots [store view]	No	▼
Select Yes for show dots for slider		

Display Options

Customise how new products are displayed:

- **Number of Items in Main Block:** Specify the number of products to be shown in the main block.
- **New Products:** Choose between Auto, Manually, or Both to determine how new products are selected for display.
 - **Auto:** Automatically show products based on system settings.
 - **Manually:** Select products to feature manually.
 - **Both:** Combine automatic and manual selections.
- **Select New Products Type:** Choose Display All Products or filter by Categories.
- **Use 'New from Date' and 'New to Date':** Apply date filters if "New Products" is set to "Auto" or "Both".

Number of items in Main Block <small>[store view]</small>	<input type="text" value="20"/>
Show number of products in main block	
New Products <small>[store view]</small>	<div>Both ▼</div>
Auto >> Show system generated products. Manually >> Show manually added products. Both >> Show both system generated and manually added products.	
Select New Products Type <small>[store view]</small>	<div>Display All Products ▼</div>
You can display all products or display by categories	
Use 'New from Date' and 'New to Date' <small>[store view]</small>	<div>Yes ▼</div>
Applied only if "New Products" field is set to "Auto" or "Both".	

Product Filters and Sorting

Configure how products are filtered and sorted:

- **Sort By:** Select the attribute used for sorting the new products list, such as Price, Name, or Date Added.
- **Sort Order:** Choose between Ascending or Descending to determine the order of the product list.
- **Display Product Price:** Select Yes to show product prices on the frontend.
- **Display Add to Cart:** Choose Yes to show the "Add to Cart" button.
- **Display Add to Compare:** Select Yes to include the "Add to Compare" link.
- **Display Add to Wishlist:** Choose Yes to display the "Add to Wishlist" link.
- **Display Out of Stock Products:** Select Yes to include out-of-stock products in the display.

Sort By <small>[store view]</small>	Price	▼
Set attribute that is initially used to sort the new products list.		
Sort Order <small>[store view]</small>	Descending	▼
Display Product Price <small>[store view]</small>	Yes	▼
Select Yes for display Product Price on frontend

Select Yes for display the Add to cart button on frontend.		
Display Add to Compare <small>[store view]</small>	Yes	▼
Select Yes for display the Add to Compare Link on frontend.		
Display Add to Wishlist <small>[store view]</small>	Yes	▼
Select Yes for display the Add to Wishlist Link on frontend.		
Display Out of Stock Product <small>[store view]</small>	Yes	▼
Select Yes for display the out of stock items on frontend.		

Using the Extension

Displaying New Products

To display new products on your store:

1. Navigate to the desired page or template where you want to showcase new products. This could be the homepage, a category page, or a custom page.
2. Insert the code snippet or widget provided by the extension into the page layout or template.

Default Package Code

XML Tag Representation [global]

```
<referenceContainer name="content">
<block class="Mavenbird\Newproduct\Block\Newproduct"
name="newproduct" ifconfig="newproduct/setting/enable"/>
</referenceContainer>
```

Template Tag Representation [global]

```
{{block class="Mavenbird\Newproduct\Block\Newproduct"}}
```

Call Via Frontend Template File [global]

```
<?php echo $this->getLayout()-
>createBlock("Mavenbird\Newproduct\Block\Newproduct")->toHtml(); ?>
```

Troubleshooting

Extension Not Displaying:

- Verify that the extension is properly installed and enabled.
- Clear Magento cache and browser cache to refresh the display.
- Ensure that the correct code snippet or widget is used on the page.
